**INNOVATION**

# **TUBULAR BATTERY**

## NINE ENERGY BATTERY FEATURES

- 99.97% - 99.99% Pure lead • Full capacity/True AH output • 100% factory charged battery • Hi-efficiency grid design made of Selenium/low Antimony alloy with grain refiners for low water loss ,least corrosion long life • Low self discharge • Heavy duty terminals • Ceramic water level management system with micro porous vent plugs for least environmental pollution & less topping up • Rugged anti-corrosive additive-for longer battery life • Computerized formation -for uniform quality and peak performance • Container made of PP Co-polymer for strength & robustness • More ribs on container for better strength • Paper less warranty

## TUBULAR PLATES FEATURES

- Tubular technology Deep cycle design suitable for longer power cuts
- Calcium alloy/ultra low maintenance and less topping-up
- PE separator - low electrical resistance, minimal self discharging & high porosity
- Cell partition welded with short electrical path for low internal resistance

## Technical Specifications

Battery Model 12V	Capacity at C20 (Ah) @27°C	Overall Dimensions (mm) ±5			Charging Current (A)	Weight with Acid (kg)	Warranty (month) + Prodata
		Length	Width	Height			
9E 18K36	160	500	220	290	10	52	24+12
